Professional Summary

Frontend Architect and Technical Lead with **9+ years of experience** delivering Banking, Lending, Mortgage and Fintech platforms **using React.js, Next.js, Vue.js, TypeScript** and **Micro Frontend Architecture**.

Expertise in frontend **architecture, design systems, accessibility (WCAG 2.1), performance optimization, SSR/SSG**, and enterprise-scale application development. Experienced in leading distributed engineering teams and driving frontend governance across large-scale digital transformation programs.

Strong expertise in **Accessibility, Vue 3 Composition API, React Hooks, and modular Micro Frontend architectures** tailored for digital lending and financial analytics platforms. Skilled in collaborating with business teams to translate complex loan workflows and financial rules into intuitive, responsive user interfaces that enhance user experience and operational efficiency.

As a **UI Architect and Technical Lead**, defining component-driven design systems and enforcing development best practices across distributed teams.

Technical Skills

- **Frameworks & Libraries:** React.js 18 (Hooks, Context API, React Router), Next.js 13/14 (App Router, SSR, SSG, ISR, Server Components), Vue.js 3 (Composition API), Micro Frontend (Module Federation, Single-SPA).
- **Languages:** JavaScript (ES6+), TypeScript 5, HTML5,
- **State Management:** Redux, Zustand, Vuex, Pinia,
- **Styling:** Tailwind CSS, Bootstrap, CSS3, SCSS/SASS, Material UI, modular CSS, responsive design, cross-browser compatibility, and CSS architecture
- **Testing:** React Testing Library, Jest, Vue Test Utils
- **Build Tools:** Vite, Webpack, NPM, Git
- **APIs & Integrations:** RESTful APIs, Stripe, Chrome DevTools
- **Accessibility:** WCAG 2.1 Compliance, WAI-ARIA Standards, Semantic HTML, Keyboard Navigation, Screen Reader Compatibility, Color Contrast Testing (Lighthouse)

Professional Experience

UI Technical Lead – Finova Technologies (*Dec 2020 – Aug 2025*)

Domain: Digital Banking | Loan & Mortgage Solutions

- Owned frontend architecture strategy for enterprise **digital banking** and lending platforms.
- **Led frontend development** of loan origination and mortgage management systems.
- Built borrower dashboards, EMI calculators, repayment tracking, and loan workflow modules using **React.js, next.js, Vue.js, and TypeScript**.
- **Designed reusable component** libraries and frontend standards to improve consistency and delivery speed.
- Defined state management and frontend integration architecture using **Redux and Pinia**.
- **Integrated Stripe and Plaid APIs** for secure payment processing and account verification.
- **Developed real-time dashboards** and reporting modules using REST APIs.
- Improved UI **performance by 40% through Next.js optimization, code splitting, lazy loading, and bundle optimization**.
- Collaborated with architects, backend, compliance, and QA teams to ensure secure and scalable solutions.
- Mentored frontend developers and established coding standards and governance practices.
- **Ensured WCAG 2.1 AA compliance** through semantic HTML, ARIA, and accessibility audits.

Sr UI Developer – Espire infolabs *(Dec 2017 – Dec 2020)*

Domain: Enterprise Web Applications | Service-Based Projects

- Developed enterprise web applications for **education, banking, and retail clients using React.js, Vue.js, and REST APIs**.
- **Led frontend development of ACU (acu.edu.au)**, a large-scale university platform serving students, faculty, and admissions teams.
- Designed reusable component frameworks for admissions, student services, faculty portals, and course catalog modules.
- **Implemented SEO-friendly architecture using, route optimization, lazy loading**, and multi-language support (i18n).
- **Integrated REST APIs with CMS** and backend systems for content-driven applications.
- Built financial dashboards and reporting solutions for **BFSI clients using Vuex and REST APIs**.
- Implemented **accessibility standards including ARIA roles, keyboard navigation, semantic markup, and WCAG compliance**.
- Created reusable UI libraries and component-driven architecture to improve consistency and development efficiency.
- Conducted code reviews and enforced frontend engineering best practices across project teams..

Sr. HTML Developer – Quasar Media Pvt. Ltd. *(Aug 2015 – Dec 2017)*

Domain: Service-Based Projects

- Developed responsive client-facing websites **using HTML5, CSS3, JavaScript, and jQuery**.
- Built reusable UI components and **optimized frontend performance for scalability and maintainability**.
- Ensured **cross-browser compatibility** and **accessibility compliance** across multiple projects.
- Established **HTML/CSS standards** and reusable frontend patterns for faster development.
- Collaborated closely with designers and developers to deliver **scalable UI solutions**.
- Introduced **responsive design and accessibility best practices** into project workflows.
- Participated in **Agile development processes** including **sprint planning**, reviews, and team collaboration.

EDUCATION

Bachelor of Computer Applications (BCA), Jodhpur National University – 2016

Professional Degree - Multimedia and fine arts

ONSITE EXPERIENCE

U.S., 3 months. | **Singapore**, 3 months. | **Australia**, 6 months.
